

WHY IS IT?

A continuation of our articles on the reason why some people are poor and have a hard time, and how they can save money and become better off. The easiest money made is in buying. We know of a class of people, and they are many, who when they are asked a price for anything will make and offer much more than the price asked, and think by so doing they are saving money. They don't know the value of the goods they propose buying. Whether the price they offer is more or less than they are worth, to effect this class is a class of tradesmen who always ask two or three times more than value for their wares, and if they only get half or one-third asked, make a good profit. Now these classes of tradesmen and people are well matched, but it does great injury to a large class of people who are just the reverse. Those that want a bargain but will not chaff and jaw to get it, but wish the price named to be the lowest price that will buy the goods and will be a bargain. The best way to find out how to get a bargain is to know the value of the goods wanted and their lowest market price, but as most people do not have the facilities for such information, the next best thing is to find out the reliable stores—stores that sell the class of goods they advertise, and at prices named, (but BEWARE of the stores that are just out of the bargain they advertise as it is a scheme to get customers in and sell them something else), as the reliable stores don't advertise goods at prices that do not intend to sell at, but on the contrary, have the goods at the prices, except in some cases the demand is greater than they anticipate, but soon inform their customers of this fact, and either offer a better bargain or something equally as good. We know it is hard for every one to know all the things necessary to outwit the sharper, who takes advantage of the lack of knowledge to increase his gains, but ordinary observation and study will protect anyone so they can know a bargain when offered.

We try to fill the above indications for a reliable Bargain Store, to give the greatest values the market affords, give just what we advertise and advertise just what we have. When we say we are selling an article at 50 cents on the dollar, we mean that to be half the regular prices for the goods named.

We have Men's and Boy's Fur Hats going at 50, 75c, \$1.00 and \$1.25, our prices. The regular prices are \$1.00, \$1.50, \$2.00 and \$2.50 for the same goods elsewhere. We have the goods to prove it. When we say that we are selling Ribbons, Laces and Embroideries at a way down prices, we mean that no house in the city matches our prices. To prove it, come and see our offerings here, after you see the prices made elsewhere.

250 pieces shirred neck ribbons in plain, striped and plaid, all silk, at 5c a yard. Regular 10c goods.

Thousands of yards of laces at 1c, 2c, 3c and 5c a yard that cost in the regular way 5c, 10c and 15c a yard.

One case of Madras Ginghams at 64c per yard; regular 10c quality.

To verify our claims you are requested to call and see goods and compare qualities and prices.

Ladies', Misses' and Children's shoes at prices not made elsewhere for \$1.00; we offer 29 pairs that were \$2.00 and \$2.50 a pair for \$1.98. We offer a \$2.75 quality ladies' shoe. Every shoe and slippers at bargain prices.

We could name 1000 articles at bargain prices if space would permit, but we prefer you to come and see how much we can save you on your purchases. Make a start if you have not done so to make your money bring you full value every time. We will help you to help yourself. We have large stock to select from; 26 departments at
